## iwill

Too often society fails to listen to young people's views or recognise your ability to make a positive difference. It's time for that to change.

Whether it's protecting the environment, tackling knife crime, improving mental health, combating racism, campaigning against period poverty or something completely different, you can make a huge difference. There are lots of ways you can take action.

By taking action you will not only benefit your community, you will also gain skills and experience that will help you to achieve great things at school, in further education and in your employability when you look for a job. If you want to make a difference and are interested in youth social action, check out [iwill](#) to see how you can contribute.

## National Citizen Service

The National Citizen Service (NCS) is all about helping teenagers realise their potential by giving them a taste of independence and loading them up with new skills that set them up to achieve their future goals, whatever they may be.
