

# THE SIXTH

THIS WEEK...

DROP-DOWN DAY

7–11 November 2022

On **Tuesday 8th November**, we have the first of our Drop-Down Days (see p.4). In preparation for this, all students need to bring in their subject folders. We expect to see all of the work you have completed since September in a well-organised folder for each subject; these will be checked by your form tutors. You will make good use of your notes during the day as the revision session will cover some useful revision strategies.

## OPEN EVENING

The Sixth Form Open Evening is on **Thursday 10th November** (5–8pm). If you are willing to help us on the evening, please complete this [online form](#) by **Monday 7th November**. Pizza will be provided!

## PWC CAREERS TALK

On **Wednesday 9th November** PWC are delivering an assembly on their [school leaver programme](#). [Click here](#) to reserve a place.

## GCSE RE-SITS

Well done to those students who sat their GCSE English and Maths papers last week. Good luck to those who have their final GCSE Maths exam on **Monday 7th November**.

## GATEWAY PROGRAMME

Following on from Dr Dodds' launch to Year 12 in assembly last week, the link is on SMHW if you wish to be included.

## SELF-GENERATED IMAGES

Students will receive an assembly about 'self generated images' and how to safeguard themselves online. Watch the video from the [Lincolnshire Police here](#).

If you have been a victim of online abuse or you're worried about somebody, [click here](#).

To report and try to get an image removed, [click here](#).

## MAKATON COURSE

We will be running three Makaton courses on **16th, 23rd and 30th November** from 2.10–3.10pm. Rooming will be confirmed. Students will sign up to either 16th or 23rd and then will also attend on the 30th November for an (early) Christmas special. See p.6 for more information.

## PLEASE GIVE US YOUR FEEDBACK!

We would like to hear both student and parent feedback on *The Sixth*. Please spare 5 minutes to complete this [short questionnaire](#).

# NEWS

## Year 12 scoops Zoological Award

The Zoological Society of London (ZSL)'s Scientific Awards Committee has awarded a Certificate of Commendation to Year 12 Rhea Sanderson for her project submitted to the Prince Philip Award and Marsh Prize. Rhea's project focused on encouraging pollination activity by bees in domestic gardens in an attempt to reverse their declining numbers.

Called *Buzzed Off: A Study into Methods of Mitigating the Effects of The Declining Bee Populations*, Rhea's research suggested that the number of pollinating insects attracted to a plant can be increased by spraying it with a solution of honey. In this way, the impact of a declining bee population on pollination could be reduced by artificially encouraging insects to visit selected plants.

Amazing work Rhea! Well done.

## Cambridge finalist

Congratulations also go to Oscar Bode-Hey whose entry into the HE+ Poster competition run by Cambridge University has made it into the final!

## Makaton

Makaton is a unique spoken and non-verbal language programme that uses symbols, signs and speech to enable people to communicate. It supports the development of essential communication skills such as attention and listening, comprehension, memory, recall and organisation of language and expression.

Being able to communicate is one of the most important skills we need in life. Almost everything we do involves communication; everyday tasks such as learning at school, asking for food and drink, sorting out problems, making friends and having fun. These all rely on our ability to communicate with each other.

With Makaton, signs are used, with speech, in spoken word order. This helps provide extra clues about what someone is saying. Using signs can help people who have no speech or whose speech is unclear. Using symbols can help people who have limited speech and those who cannot, or prefer not to, sign.

For those who have experienced the frustration of being unable to communicate meaningfully or effectively, Makaton really can help. Makaton takes away that frustration and enables individuals to connect with other people and the world around them. This opens up all kinds of possibilities.

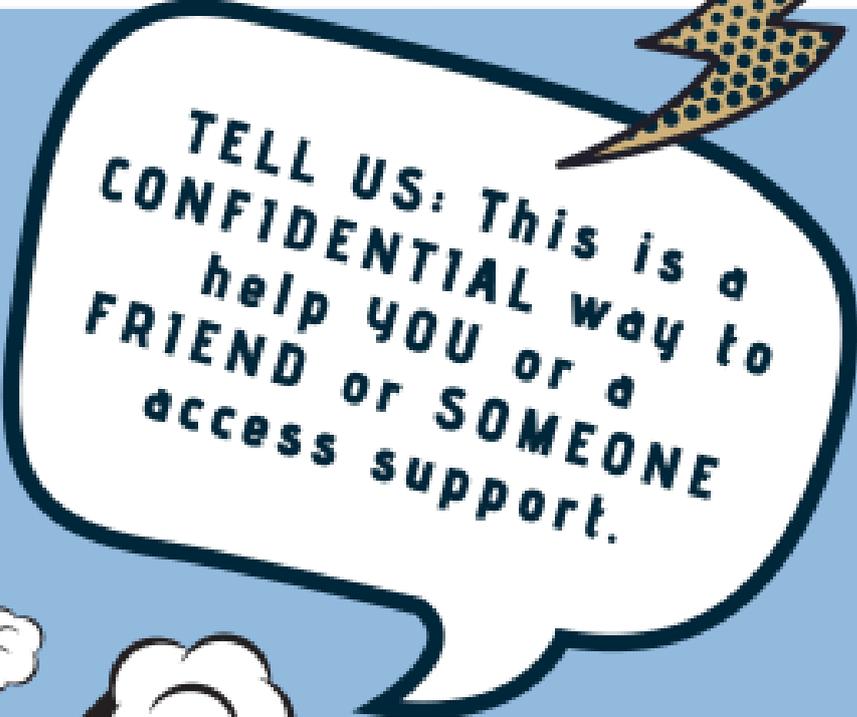

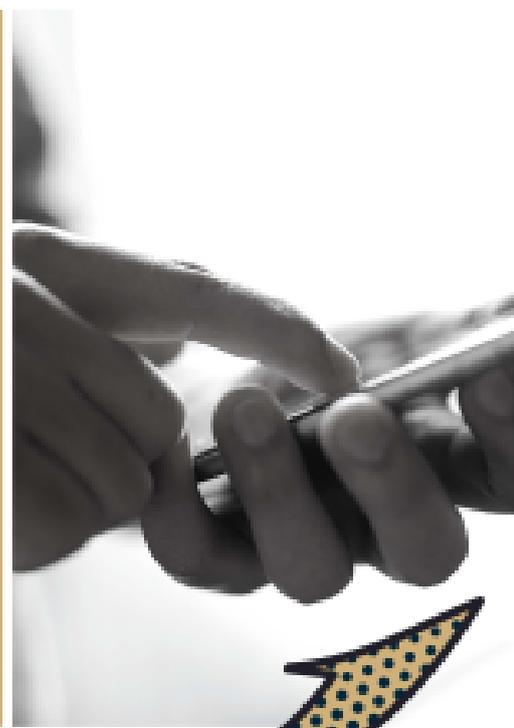

This course will suit any student interested in being an inclusive school community including those wishes to work in caring and education professions in the future.

*We will be running three Makaton courses on **16th, 23rd and 30th November** from 2.10–3.10pm. Rooming will be confirmed nearer the dates.*

## Army Officer Internships

An Army Officer Internship offers the chance for students to experience the role for 6 to 18 months before, during or after university.

This will provide students with an unrivalled insight into the life of an Army Officer, with plenty of support from the team. Whilst this is not an active service role, students will still experience the range of training and opportunities available to a young Army Officer.

- Apply by **31st December** for Internships starting in September 2023
- Anyone seeking a place at a university or college can apply
- Army Officer Interns will be paid £18,000/year (£1500/month)
- Once the internship has been completed you can elect to remain in the Army, as a Reservist or regular Army Officer

WEIZMANN UK

SUPPORTING THE WEIZMANN INSTITUTE OF SCIENCE

## International Summer Science School

***Application deadline: Monday 13th February 2023***

The Dr Bessie Lawrence International Summer Science Institute is a unique opportunity for Year 13 students to spend a month working as part of a research team alongside leading scientists at the Weizmann Institute of Science. As well as getting the chance to conduct real scientific experiments, students produce reports and present their findings to their peers before spending a week in a field school where they experience the diverse ecosystems, wildlife, and archaeology of the region.

Outside of lab time, students get the opportunity to visit different parts of the region including Jerusalem and the North of Israel whilst forging lifelong friendships with over 80 like-minded participants.

Each year Weizmann UK has ten scholarship-funded places for UK students to participate in this programme. However, students are asked to give a minimum contribution of £600 towards flights and Insurance.

Students can read blogs about what it is like to be on the programme from previous participants by [clicking here](#). To see examples of projects completed by past participants, [click here](#).

To find out if you are eligible and for more details, please email [scienceeducation@weizmann.org.uk](mailto:scienceeducation@weizmann.org.uk)

# WHAT ARE TRAINEESHIPS?

Pre-employment programmes for 16-24 yr olds

A Traineeship is a fully-funded education and training programme for 16-24\* year olds (\*25 year olds with an Education, Health and Care Plan) to build employability skills and gain valuable sector-based experience through a work placement.

## How long is the programme?

Traineeships can last from 6 weeks to a maximum of 1 year, although most will be up to around 6 months. The duration of the programme will be decided with your training provider, once they have spoken with you and assessed your needs.

## What does the programme involve?

Trainees will receive a wide variety of skills and personal development, including:

- A work experience placement with an employer.
- Work preparation with your training provider.
- English, maths and digital skills development (if required).

## How does the programme work?

A traineeship can start at any point in the year. You will need to find a training provider in your local area who is offering the programme, and then make contact with them to get started.

They will work with you to understand your future plans, and to put the correct level of support in place to help you to move towards further employment or education, as well as organising a valuable work experience placement.

INSPIRE  
ME!

To discover more about traineeships and to hear about other example journeys, please scan the QR code with your phone or visit: [amazingapprenticeships.com/traineeships](http://amazingapprenticeships.com/traineeships)

# WHAT ARE TRAINEESHIPS?

Pre-employment programmes for 16-24 yr olds

## Where will I be learning?

Traineeships combine a mix of classroom-based learning with a work experience placement with an employer. You will be supported to work towards qualifications in English, maths and digital (if required) as well as receiving support to prepare your CV.

## Do trainees get paid?

Work experience placements through traineeships are unpaid, however employers are encouraged to support trainees with expenses such as transport and meals, depending on personal circumstances. If you are in receipt of benefits, please speak with your local Jobcentre Plus adviser or Work Coach who will be able to confirm that your benefits can continue.

## What happens at the end of the programme?

Traineeships require the employer to carry out an exit interview, or a new job interview if appropriate. Your training provider will offer you support and guidance with your job search and help you feel confident in applying for and securing an apprenticeship, employment or further training.

## Why is a traineeship a great opportunity?

A traineeship provides you with the opportunity to:

- ✓ Increase your confidence and understand what employers are looking for.
- ✓ Gain new skills and achieve qualifications.
- ✓ Build your experience of the workplace, meet employers and develop practical skills.

## A world of opportunities for everyone

## Network Rail Apprenticeships

The following roles are available at various locations:

### Level 3 Engineering Apprenticeship

An Engineering Apprenticeship with Network Rail is the first step into an exciting career in the Rail industry. As part of the team, you'll help shape national projects, embrace the latest tech and learn the skills to succeed. The entry requirements are: at least GCSEs in English Language and Science at Grades 9–4, Maths at Grade 9–5, and one other subject at Grades 9–4. Or you'll need an NVQ or BTEC Level 2 or above in an Engineering subject or equivalents.

### Level 6 IT and Business Services Degree Apprenticeship Scheme

On this IT Apprenticeship, you'll gain experience across a broad range of activities that will develop your key employability and industry-specific skills. You'll earn while you learn, on this structured yet flexible scheme, that allows you to set the pace and drive your own development and gain broad experience within IT. The entry requirements are 5 GCSEs Grade 9–5 (including Mathematics and English) and 3 A' Levels which should include 1 STEM subject. (BCC or 104 UCAS points equivalent). BTEC equivalent qualifications at Distinction\* are also acceptable.

## PortSwigger's Women in Tech opportunities

*Applications close: Monday 20th March 2023*

PortSwigger is a market-leading cyber security business based in Knutsford. Following a hugely successful first intake of scholars, it is again opening applications for internships and scholarships. Both of the scholarships and internships aim to encourage young women to kick-start a career in tech.

The scholarship scheme offers generous support throughout university: a financial reward package over the course of your studies of around £70,000, including a paid placement year and summer internship work at PortSwigger, as well as a tailored personal development programme and the potential to work for the company after graduation.

The paid internships offer 4+ weeks of hands-on experience of real software development at the company office in Knutsford. This opportunity is perfect for students whose university courses do not offer a placement year as part of their curriculum.

# GIVE SOMETHING BACK

## Wear it Pink

Well done to Year 12 and 13 students who wore pink to school on **Friday 21st October** for the Breast Cancer Now charity. A total of £304.15 was raised thanks to a cake sale, a boys vs. girls netball game and other fundraising activities throughout the day.

“Everyone had an amazing day dressed up in pink to support and raise money for breast cancer awareness day! The highlight has to be the annual netball match where some of the rugby lads took on the challenge of playing the girls netball team. Both teams looking pretty in pink!!”, said one of our Charity Reps Esther Compton.

“Thank you so much to everyone who helped raise funds and awareness for this important cause.”

## Manchester Street Angels Shoebox Appeal

We are again supporting the Manchester Street Angels Shoebox Appeal to support those who are homeless and struggling in Manchester. Students have been informed about this during Form Time.

If you'd like to contribute to this collection, items to include in the Christmas wrapped shoebox, and the different groups to support, can be found on [these attached slides](#).

### Steps involved

1. Students can decide whether to donate a box individually, as a group, or as a Form.
2. Decide which group you want to fill a box for (young adult, the elderly, children or dogs).
3. Wrap a shoebox in Christmas paper – wrap the lid and box separately so you can fill it and take the lid on and off.
4. Start filling your box with the required and accepted items.
5. Bring your box labelled (sticky note) with the intended recipient and £1 into school before **Wednesday 23rd November**.

Students can speak to Miss Sykes for more details or if they have any questions.
